 2012

Additional Information: See the UL Online Certifications Directory at
www.ul.com/database for additional information.

Only those products bearing the UL Certification Mark should be considered as being covered by UL's
 Certification and Follow-Up Service.

Recognized components are incomplete in certain constructional features or restricted in
 performance capabilities and are intended for use as components of complete equipment
 submitted for investigation rather than for direct separate installation in the field. The final
 acceptance of the component is dependent upon its installation and use in complete equipment
 submitted to UL LLC.

Look for the UL Certification Mark on the product.

This is to certify that representative samples of the product as specified on this certificate were tested
 according to the current UL requirements.
